---	---	---

PRESENTATION HIGHLIGHTS:

Learn the key points that should be included in your Emergency Response Plan (ERP), and use this hands-on class to create or update your ERP. Get a free manual with templates for forms that all water systems need in case of an emergency situation. Find out how to prepare your system now for potential future water shortages. As recent years have shown, California is extremely prone to drought so it is as important as ever to prepare for water shortages in diverse situations. If you are a water system serving a population of 3,300 or more (1,000 connections), your system is required, by the U.S. Environmental Protection Agency, to have a completed ERP. However, ERPs are highly recommended for all water systems and are required for new water systems or those doing a change of ownership. This class will be hands-on in nature. The intent is to complete your system's ERP update during the class. If you already have an ERP, please bring it to the class with you. Attending this class will earn you contact hours for Water Treatment and Distribution operator certificate renewals. For more information on Drought Preparedness, visit www.cadroughtprep.net.

INSTRUCTOR:

Dan DeMoss currently holds the position of CRWA Executive Director. Dan has been in the water/wastewater industry since 1985, starting as a small town operator and working up to the public works foreman position. He started in the technical assistance and training field in 1990. Dan has been in contract operations as a plant operator and system manager, water industry sales and service, and has extensive experience in the underground utility contracting field. Dan holds certifications in water treatment, distribution, wastewater treatment, and collections.

UCD West Side Extension Center, 17353 West Oakland Ave, Five Points, CA 93624

DIRECTIONS:

Via I-5: South to Coalinga exit. Turn left onto SR 145, proceed for about 5 miles. Make a sharp right turn (east) on Oakland Avenue; go about 6 miles.

Via Hwy 99: South to Madera. Take 145 south to Five Points, go south on 269 (Lassen Avenue) 6 miles to Oakland Avenue.

Via I-5: north to SR 269 (Huron exit). North on 269 about 20 miles to Oakland Avenue.

Attendee(s) Name(s): _____

System or Company Name: _____

System or Company Address: _____

City: _____ State: _____ Zip: _____

Phone: _____ FAX: _____ Email: _____

TO REGISTER: FAX this form to (916) 553-4904 or mail to CRWA, 4125 Northgate Blvd., Sacramento, CA 95834

Classes are limited to 30 students per day. We will not confirm registration but will advise if class is full and put you on a waiting list. If you have registered and cannot attend, please call 800-833-0322 to cancel – there may be a waiting list. Please let us know if any registrant requires special accommodations for disabilities. For more information on this and other training classes offered by CRWA, visit our website: www.calruralwater.org. Questions? Call our office! 800-833-0322. Thank you!

Opt-out: If you received this flier as a fax or email and wish to be taken off our distribution list, please call 800-833-0322 or email (whipple@cwo.com). Thank you!
